Graficación del Sprint 1 (Burndown chart o gráfica de trabajo pendiente)

Puntos estimados para el sprint   140

Día	Completado diario Estimado	Real	Pendientes sprint Estimado	Real
0	0	0	140	140
1	10	10	130	130
2	10	10	120	120
3	10	10	110	110
4	15	15	95	95
5	30	30	65	65
6	15	15	50	50
7	10	10	40	40
8	30	30	10	10
9	10	10	0	0

Burn down chart
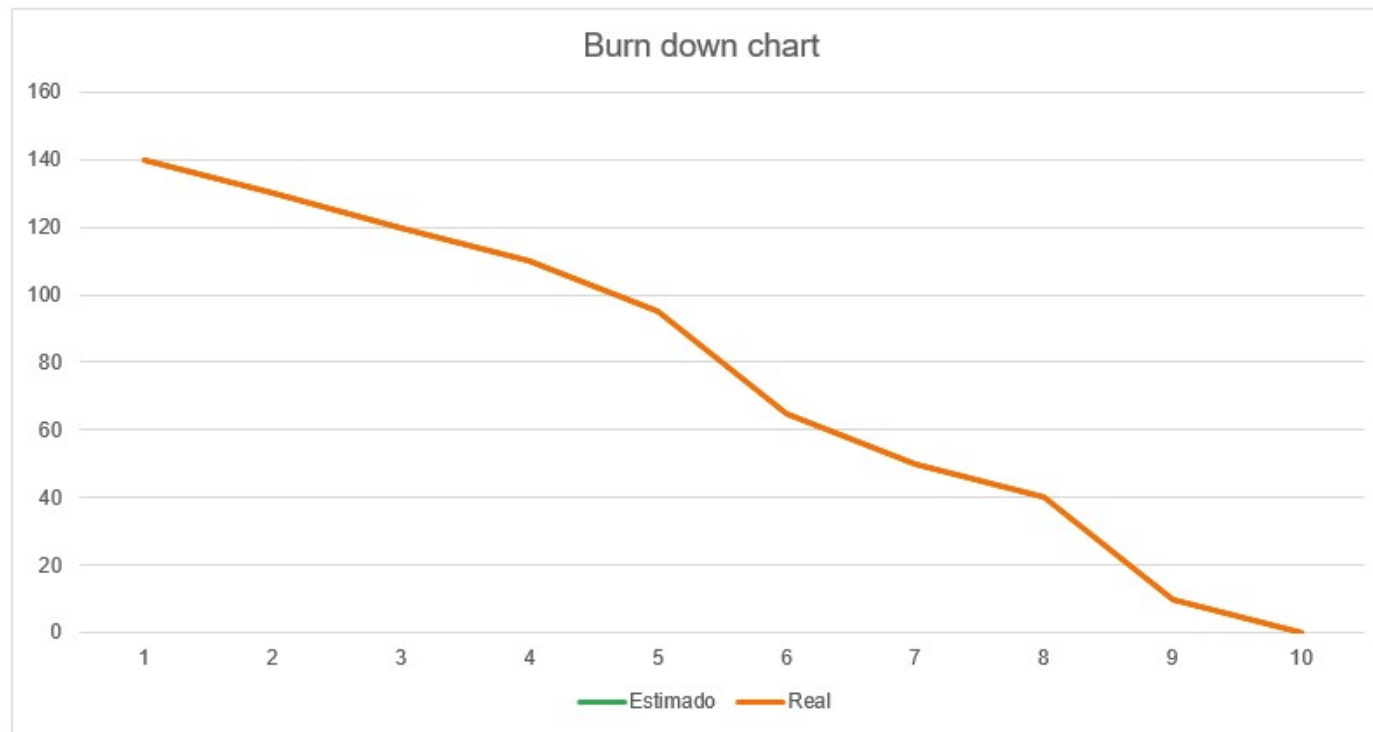

Muestra de cómo se vería la gráfica si el desarrollo se hubiera retrasado en algún punto

	Completado diario		Pendientes sprint	
Día	Estimado	Real	Estimado	Real
0	0	0	140	140
1	10	10	130	130
2	10	10	120	120
3	10	5	110	115
4	15	10	95	105
5	30	20	65	85
6	15	5	50	80
7	10	20	40	60
8	30	10	10	50
9	10	20	0	30

Burn down chart
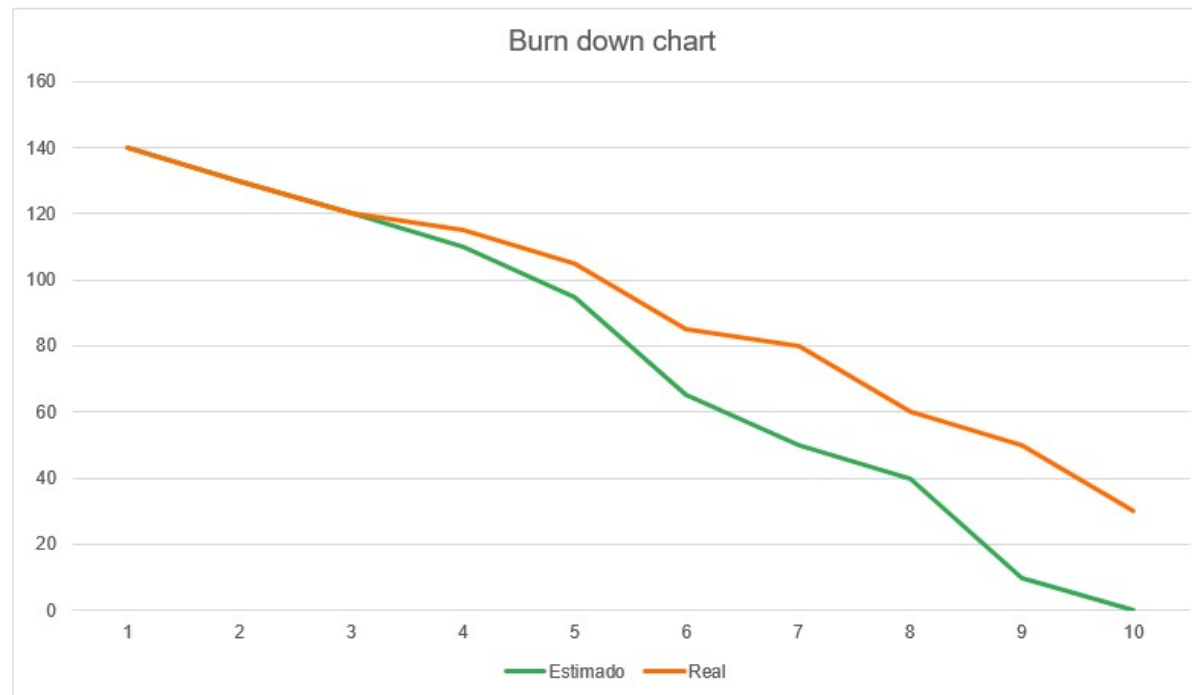

Intentamos usar la herramienta de Trello para hacer la gráfica, pero no se generaba correctamente, (no coinciden las posiciones, nótese un desfase considerable) por este motivo la realizamos en Excel.

Below, you can enter the estimates for each card in this board. Once you're done entering or changing some of the estimates, click the 'Update' button on the bottom to save your estimates.

Hours Est.	Spent	
1	2	1
1	2	2
1	2	3
1	2	4
2	3	5
7	8	6
1	2	7
1	2	8
2	3	9

🔥 Settings - Test burndown

Sprint Duration **Mar 16, 2020 - Mar 26, 2020 ▾**

← Back to Charts   💾 Save Settings

You are on a *Free* account. Only basic settings are shown above.

Advanced Settings are only available on Paid Accounts. They give you powerful additional customization for each board. For instance, you can: Control whether Archived Cards are ignored or if they are treated as "Done" cards.
Set whether this board tracks "Hours" or "Points".
Configure *weekends* to be "workdays" or "days off".
Set specific dates as *holidays*.

🔥 Edit Data - Test burndown

Date	Hours Remaining	Hours Completed	
Initial	18	18	✏ Edit

← Back to Charts

You are on a Free account and can only edit the Initial value currently. Editing the historical Chart Data is only available on Paid Accounts. Editing the chart lets you:

Change (correct) the values for any days in the past. This can be helpful if you didn't add estimates until later-on in your Sprint and you want to adjust the values.

See the original values so you never accidentally, permanently overwrite your data.

See when the data was most recently changed and who changed it, to help track down explanations if things get confusing.

To unlock this feature, upgrade to a full account using the button below!
